army and navy to distribute illegal propaganda in facts, not in words, as has been done in the case in the past, and other things that would be illegal

under the present form of society."
He also explained that if the words "mass action" were used in the pro-

ram it would cover the words of certainty, the present Government would never allow them to use.

"So, by having a program of this kind with an illegal apparatus, the C. E. C. at any time could call for several men and let them join the army

and navy and undermine them through

and navy and undermine them through the propaganda work, and once they are undermined," he said, "we could come out with a full Communist pro-gram and propagate armed insurrec-tion without any one being able to

A vote was taken. It favored the Ruthenberg idea. It was learned that M. Jakiro made

It was learned that M. Jakiro made a motion at a subdistrict committee meeting to have youths who are members of the party join the military training camps for two reasons—one to propagate among them and the other to become militaristic in preparation of the time of a revolution. Jakiro is subdistrict organizer.

Plans for Workers Party.

A Chicago report gave a detailed account of the plans of the Communist Party for the Workers Party. A set of typewritten instructions sent out to all members of "No. 1"—"the li-

legal party"—as to what their atti-tude toward "No. 2"—the legal wing—

should be, was procured. These in-structions are binding to all members. Here are some of the important enes: "The complete and satisfactory ad-justment of No. 1 and No. 2 is the hext problem that the party must

"We have had no experience in the form of organization which we are at the present time building up. Up to the present we have been functioning as a party under conditions of suppression. The form of organization was adapted to this condition and al-

was adapted to this condition and al-though the machinery was cumber-some there was no particugiar prob-lem of organization. To-day, in con-structing the No. 2 we are confronted with the problem of adjusting No. 1 to No. 2 in such manner as not to hamper the growth of the new organ-ization.
